PROFILE INFO

BSc Computer Science student with skills in Java, C, C++, HTML, Linux and web technologies. Participated in the Smart India Hackathon (Hardware Edition), working on an IoT-based traffic monitoring system. Experienced in YouTube content creation, focusing on men's fashion & skincare. Currently launching a natural cosmetics brand and exploring business & investment opportunities. Passionate about technology, branding, and financial growth.

EXPERIENCE

TECHNICAL BACKGROUND   2023-2024

I am a BSc Computer Science student with skills in Python, C, C++, MySQL, and web technologies. I participated in the Smart India Hackathon, working on an IoT-based traffic monitoring system using sonic speakers.

PROFESSIONAL & CREATIVE   2024-2024

I balance a part-time job with studies and content creation. I run a YouTube channel on men's fashion & skincare, gaining experience in video editing, SEO, and branding

ENTREPRENEURIAL JOURNEY   2024-2025

I am launching a natural cosmetics brand (AIXA), handling product sourcing, marketing, and business growth. I also invest in stocks, SIPs, and ETFs to build financial stability.

ACHIVEMENT

- **2023 – 2024**
  Technical Skills Development – Learning JAVA, C, C++, HTML, LINUX and web technologies as part of my BSc Computer Science curriculum.
